

12 Powers for Our Planet

Will is the spiritual ability to choose and commit, aligning our personal intentions with God's will. It transforms into purposeful decisions, promoting spiritual wholeness and reflecting God's ideal within us. Prayer

For all the regions and beings around the world that are being ravaged by fire we are praying for your safety. We pray for humanity coming into balance with all the rest of nature so that this magnificent planet can heal and revitalize.

Dry vegetation, drought conditions, weather, lightening and human activity have created the fuel. Let us see right action taking place in the minds of our world leaders to carry forward policy to protect the land, the waters and all its inhabitants. Where discernment is clear as light is ever present. Cascading truth in all directions to carry the highest good in full fruition.

The land is fertile, the water is clean, the air is place holder for the beautiful song of healing and love. We boldly affirm Canada surrounded in light, love, power and protection of the great Creator. As the master physician uses the hands and hearts of each us, nation to nation to do the mighty works of Spirit in environmental justice creating sanctuary for the gifts found in its vegetation, its resources, its wildlife and its people. Where we walk, move, and stand is holy ground. For the sacredness of Mother Earth we give thanks in all her glory. In the name and nature of the living loving Christ. Amen.
